LONDON, July 10.—Latest reports from Ireland indicate the republican movement is collapsing everywhere except in the Cork district, where it is believed important events may be expected soon.

#### COOKIE CAMPAIGN PROVING SUCCESS

The committee in charge of the cookie campaign to furnish cookies for the sick and disabled boys in Letterman general hospital, San Francisco, has set to work the following report on the work accomplished to date. The first consign, ment of 18 jars went out from Tonopah last Saturday, and another will follow on July 24.

The first step taken was to receive the endorsement of all the women's organizations in Carson City. When this was accomplished a copy of the appeal and the plans for the movement were sent to the presidents or secretaries of all Legion Auxiliaries, Women's Relief Corps, and to the president of at least one woman's club in every town of the state enumerated below. Where there were no such organizations, copies of the letters mentioned above were sent to some one or several prominent women of the communities listed. Some towns in the state were missed as the committee did not know whom they could reach in the same, and any such community that has been overlooked and wishes to help in this humanitarian and patriotic cause can do so by notifying the committee in charge of the state organization which is situated in Carson City where the movement originated.

The appeal was sent to the following cities and towns: Carson, Reno, Virginia City, Gold Hill, Mound House, Dayton, Sparks, Hawthorne, Round Mountain, Mina, Lovelock, Fallon, Fernley, Star Valley, Deeth, Elko, Austin, Wadsworth, Winnemucca, Tonopah, Goldfield, Manhattan, Las Vegas, Ely, Garnerville, Minden, Genoa, Wells, Yerington, Mason and Lamolle.

WASHINGTON, July 10.—Taking care of Uncle Sam's disabled veterans of the world war and fitting them for useful vocations, is a huge task according to the veterans bureau, publishing accounts of the number of men undergoing vocational training. Up to May 1, the bureau's figures show, a total of 601,515 veterans had applied for vocational training, of which number 312,939 applications had been approved.

#### MOVIE ACTORS ATTEND SCHOOL SOUTHERN CITY

Famous Players-Lasky Corporation Has Established School  
In Los Angeles

LOS ANGELES, July 10.—The Famous Players-Lasky Corporation has established a motion picture school for its actors and actresses here and has stipulated that any "pupil" who fails to maintain 75 per cent standing in classes, attendance and general deportment is liable to dismissal from the company.

Every member of the Paramount company, which is owned by the corporation, is eligible for admission to the school. "Unlike the student body of most schools," reads a pamphlet outlining the work, "The students in this company are persons who already have established reputations in their life work of acting for the screen. Therefore, the purpose of the school is not to instruct in the fundamentals of the screen art, except as such instruction may correct minor faults, but to broaden the working knowledge of the members of the company to the end that they may increase their versatility and have a wider outlook on their art."

Two pages of the pamphlet are devoted to rules and regulations for members. Among the regulations are:

"Good alcoholic stimulants and late hours.

"Although the stock in trade of the members is their ability to portray emotions, the place for such portrayal is on the screen and not in the studio. Temperament is a valuable asset, but temperament out of control is a nuisance to yourself and everybody about you.

"Be careful of the choice of your associates outside the studio.

"Members are expected to avoid places, people, circumstances and conduct which might in any way bring themselves and the motion picture profession into disrepute.

Any member failing strictly to observe this rule is liable to instant dismissal from the company."

#### FREIBURG DEAL MAY BE CLOSED IN SHORT TIME

Combination Divide Holdings  
Optioned to Washington D.  
C. Men of Wealth

The property of the Combination Divide Mining company at the old camp of Freiburg 70 miles east of Tonopah, has been taken over under option by Washington D. C. capitalists under a 60-day bond and lease. In other words, they have taken an option on practically all the outstanding stock of the corporation. One examination of the holdings has been made and another is to follow within the next few days, and it seems almost a certainty that the deal will be consummated by the expiration of the 60 days.

In extending a drift on the vein for a distance of 35 feet, the owners uncovered three feet of ore that shows average values of \$20 a ton, while the richness of the ore is gaining as additional depth is secured.

It is rumored that the Salt Lake railroad is to alter its course along the Colorado river in order to escape danger to the washing out of the tracks at various seasons of the year, and if this change is brought about, which now seems to be assured, then the mines of Freiburg will be brought within 20 miles of the road, whereas they now lie 48 miles distant. These changes by the Salt Lake road will cut out a bad section of territory in the vicinity of Panaca, and will result in Freiburg enjoying a new lease on life.

The deal for the transfer of the stock in the Combination Divide was brought about through the efforts of Jack Whitman and others, who have control of the company. Mr. Whitman and his associates have secured full control of the old Consolidated property, which is equipped with a small smelting plant, and other needed machinery. Plans are now being formulated for the inauguration of a campaign of development upon both the Combination and Consolidated holdings.

#### EMPLOYEES OUT ARE DECLARED REAL OUTLAWS

Ultimatums Declaring Seniority  
Pension Rights Vacant are  
Effective Noon Today

TRAIN MOVEMENTS AFFECTED

National Guards in Illinois and  
Kansas are Pressed Into  
Actual Service

CHICAGO, July 10.—The nation wide strike of railroad shopmen entered the tenth day, with those in close touch regarding the struggle as entering upon the crucial stage. Ultimatums sent by a majority of the roads to striking employees declaring all seniority pension rights will be forfeited by strikers, who did not return today, expired at noon.

Both roads and shopmen apparently stood firm in their positions, and the deadlock continued. No machinery for reestablishing peace was in motion. Railroads generally were prepared to open shops with whatever labor was available, accepting returning strikers where their services were offered, and endeavoring to fill vacancies with imported workers. Interference by the strike with train movements became noticeable Saturday and spread over the week end.

The ultimatum of the railroads is termed the "old story" by B. M. Jewell, head of the striking shopmen. He asserted the unions were not worried. "These rights must be restored when settlement is reached, and of course any settlement to be predicated on such restoration of rights," he said.

PARSONS, Kan., July 10.—Supported by 300 national guardsmen in a drilling rain, the Missouri-Kansas & Texas railroad repair shops here opened today with 150 men on duty.

ST. LOUIS, July 10.—Discontinuance of 60 local and mixed passenger and freight trains on the Missouri Pacific system was announced here today. It was said this action was taken because of increases in coal prices due to the miners' strike.

SACRAMENTO, July 10.—There were no signs of disturbances when operations were resumed at the Southern Pacific and Western Pacific shops here today. Nine men out of 330 were at work, and union leaders asserted 1300 were on strike. Approximately 2100 were employed at the time of the walkout on July 1. Both roads are paying off the striking shopmen. One hundred to 150 imported Mexican workers from Southern California started being cars for the Pacific Fruit Express at Roselle. They were smuggled in early Sunday morning and there were no disorders.
